CONCLUSION

Getachew should be congratulated on organising these two courses. I feel that of all countries, we are making most progress in Ethiopia, and this is entirely due to Getachew's efforts.

We will, however, reach a far wider audience and range of participants, if we run Training of Trainers courses, and provide them with the tools necessary to train themselves. For discussion with Rudolf, Ali, Les.

Plan properly for full five day storekeepers course in Addis Ababa with at least 25 Master Trainers in Storekeeping, including making provision for all required equipment.
