KEY PERSONNEL CONTACTED

- Getachew Cherinet, EACA executive officer, Addis Ababa.
- Biratu Oljira, Project Co-ordinator, Ethiopian Obsolete Pesticides Project, Addis Ababa.
- Tsehay Azage, Pesticides Registrar and Team Leader, Crop Pesticide Registration & Regulation, Protection Department, Ministry of Agriculture, Addis Ababa.
- Samuel Ketema, Application Specialist, Crop Protection Department, Ministry of Agriculture, Addis Ababa.
- 24 crop protection specialists from Oromiya.
- 25 storekeepers from Oromiya.

ACCOMPLISHMENTS

- Two presentations on training activities.
- Presented a two day course on *General Safe Use* to Crop Protection specialists.
- Presented a three day course on *Storekeeping* to storekeepers.
- Visited site where previous trainees had implemented training.

- Attended presentation by Biratu Oljira on The Ethiopian Obstocks Program.
- Discussion and planning for future visits.
- Meeting with EACA executive, regarding training and future training.

ACTIONS REQUIRED

- All future training must be ONLY "TRAINING OF TRAINERS", not SMS's or storekeepers or operators (GC, LH, PM).
- Peter to print certificates and courier to Ethiopia (PM).
- Getachew to give certificates to participants from these courses and previous courses (GC).
- Discuss ASP storekeepers training with Olivier (GC).

CONCLUSION

As usual, a well organised trip. Thanks to Getachew.

We were able to do some field training with these trainees, and visited a farm nearby, where there was a pesticide store. We audited the store. What was very impressive, was the way in which trainees from previous CropLife training courses, based at the farm, had implemented everything that they had been trained on. Very impressive. Their stores were well set out and they had managed to organise their stores, put up signs, instructions and posters. They had PPE.

KEY

PM = Peter Mills

GC = Getachew Cherinet

LH = Les Hillowitz

Peter Mills

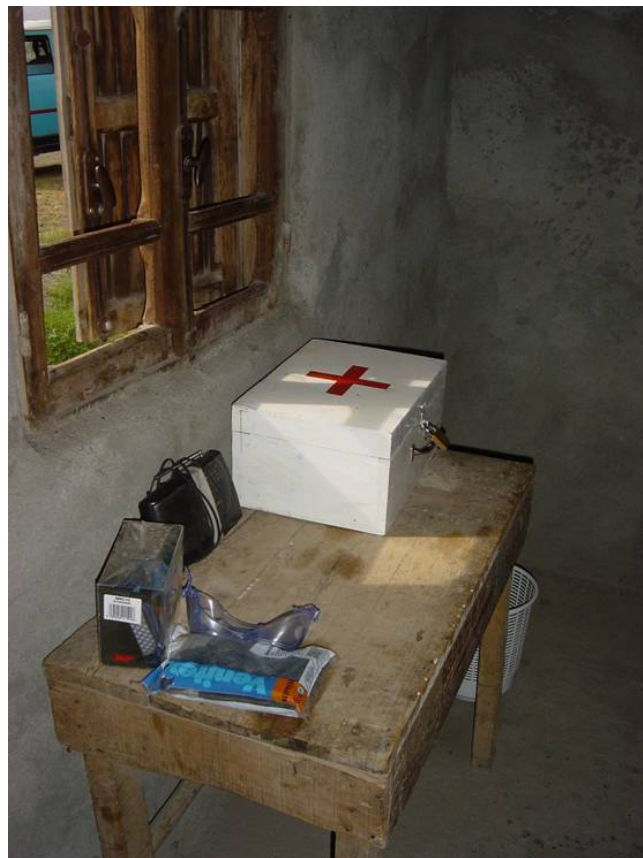

16-May-2004

Participants doing classroom exercises and learn how to read a label properly.

Participants doing practical exercises at the Pesticide Store compound, and learn to audit a store.

Participants from previous training courses had implemented many aspects of the training, including building a PPE store and compiling a First Aid kit.
