CONCLUSION

Once again, a challenging and extremely difficult course to run, logistically. Better planning would avoid confusion and problems. For a variety of reasons, the course was abbreviated to four days by cutting back on exercises, increasing attendance time, and allocating more homework. Again, despite the logistical and technical problems, we managed to produce a reasonable course, albeit abbreviated.

No-one came to the follow up meeting arranged for Friday evening in Douala, so I was unable to discuss future plans with CropLife Cameroon. Bama needs to follow up.

Some new and some experienced trainers, in particular Alice Mimba and Ndiva Manga Hans were great performers.

KEY

- PM = Peter Mills
- CLC = CropLife Cameroon
- BOY = Bama Octave Yao

Group exercises are part of the program towards developing the Master Trainers.

Ndive Manga Hans was a particularly good performer.

Ten Trainers from industry, private sector and government completed the course together with another two participants who were attending this course on a refresher basis.
